- cUL Listed for use with dimmable LED or CFL and incandescent lighting

Model 13867

Plug-In Smart Switch

- Remotely controls the on/off status of LED, CFL, halogen and incandescent lighting, fans or small appliances from your smartphone or tablet
- Flexible scheduling options: daily, weekly, sunrise/sunset, random and vacation
- Custom countdown feature turns lights off after set amount of time
- Switch contains one Bluetooth controlled AC outlet
- Space-saving horizontal design plugs into the top of a standard outlet without blocking the bottom outlet
- cUL Listed

Outdoor Switches

Model 13868

Plug-In Outdoor Smart Switch

- Wirelessly schedule and control the on/off status of an outside light from your smartphone or tablet
- Flexible scheduling options: daily, weekly, sunrise/sunset, random and vacation
- Custom countdown feature turns lights off after set amount of time
- Works with dimmable LED, CFL, halogen and incandescent bulbs
- Also works with small pumps for outdoor water features
- Weather resistant housing with outlet cover
- Ideal for use with outdoor and seasonal lighting
- cUL Listed

In-Wall Dimmers & Switches

Model 13870

In-Wall Smart Dimmer

- Wirelessly schedule and control the on/off & brightness functions of permanently installed lighting from smartphone or tablet
- For use in single pole or 3-way wiring (3-way system requires GE model #12723 add-on switch)
- Full-range dimmability from 0% to 100%
- Flexible scheduling options: daily, weekly, sunrise/sunset, random and vacation
- Custom countdown feature turns lights off after set amount of time
- Interchangeable paddle design – white and light almond paddles included
- Easy installation – screw terminal connects to existing wiring, no flying leads
- LED indicator shows switch location in a dark room (can be disabled)
- cUL Listed for use with dimmable LED or CFL and incandescent lighting

Model 13869

In-Wall Smart Switch

- Wirelessly schedule and control the on/off functions of permanently installed lighting from smartphone or tablet
- For use in single pole or 3-way wiring (3-way system requires GE model #12723 add-on switch)
- Flexible scheduling options: daily, weekly, sunrise/sunset, random and vacation
- Custom countdown feature turns lights off after set amount of time
- Interchangeable paddle design – white and light almond paddles included
- Easy installation – screw terminal connects to existing wiring, no flying leads
- LED indicator shows switch location in a dark room (can be disabled)
- cUL Listed for CFL, LED, xenon, halogen, fluorescent and incandescent lighting

In-Wall Add-On Switches

Model 12723

In-Wall Add-On Switch

- Required for use with 3-way or 4-way wiring
- Interchangeable paddle design – white and light almond paddles included
- Easy installation – screw terminal connects to existing wiring, no flying leads
- Screw terminal installation provides improved space efficiency when replacing existing switches compared to flying leads (Neutral connection required for installation)
- Can be installed with GE brand In-Wall Smart dimmers, switches and fan controls – add-on switch functions the same as the primary control

Consumers will be controlling and scheduling lights, pool pumps, water heaters and more from anywhere using their phone or tablet in no time!

- Download the free Avion application for Apple or Android smartphones and tablets.
- Getting To Know Your New Bluetooth Device
 - Maximum load for the Bluetooth-controlled outlet: 2 SA, 300W incandescent or 100W Dimmable CFL/LED
 - One Bluetooth-controlled AC outlet for standard incandescent lighting or dimmable CFL/LED
 - Remote On/Off and brightness control via smartphone or tablet equipped with Bluetooth 4.0
 - Manual On/Off and brightness control with the top panel push button
 - Space-saving design
 - Does not block the lower outlet when plugged in to the upper outlet of a duplex wall receptacle. (This assumes that the duplex receptacle is mounted with the ground pin down.)
 - Plug and cord for connected devices route to the side allowing clear placement of furniture
 - Grounded three prong connector for safety
- A. Bluetooth-controlled outlet**
This outlet can remotely turn On/Off and On the connected lamp
 - B. Manual control button**
Press and hold -> On/Off
Press and hold -> Dim/Brighten the lamp
- 1. Manually turn the connected lamp On or Off (press and release).
 - 2. Adjust the brightness level of the connected lighting by pressing and holding the button. Release the button when the desired level is attained.
- Follow the on-screen guide to add, control, and program schedules.
 - Note: Your dimmer may need to be within 20 feet of the smartphone or tablet to be installed.
 - Note: To exclude and reset the device, follow the instructions provided by your Bluetooth application. A reset of the GE Bluetooth/Bluetooth Smart Dimmer may also be necessary before adding it to another network, simply press and hold the manual control button for 16 seconds and then release. The blue LED indicator will slowly flash confirming the reset.
 - Note: Default performance of any CFL or LED will vary from bulb type to bulb type and among different manufacturers. It is important to note that only bulbs that have been designed or marketed to be used on dimmers. To find out if your bulb is dimmable, please check the package on the bulb itself or call the bulb manufacturer directly. For a complete list of recommended CFL/LED bulbs for this and other Bluetooth products from Jasco, please visit www.jasco.com.
 - * Requires 100-120 volt and an Android 4.4 and above.
 - All brand names shown are trademarks or registered trademarks of their respective owners.
 - All brand Bluetooth lighting controls are designed to work together to optimize range and performance in a connected mesh network.

Your Home

ALWAYS AT YOUR FINGERTIPS.

avi-on™

avion™

For more than 100 years, GE has used its global presence and applied new technologies to create and better the consumer products on which we depend.

As an exclusive GE licensee, Jasco Products Company develops, markets and distributes more than 2,000 GE-branded consumer electronic accessories, computer accessories, home electric products and home security/surveillance products. Jasco provides the brand people trust.

The bold, vibrant graphics and easy-to-understand messages on the Jasco/GE packaging enhance the appearance and value of the products at the retail level.

Merchandising Jasco/GE products will increase sell through, provide increased margin opportunity, and inspire confidence and brand loyalty with your customers.

Jasco works hard to meet the needs of a culturally diverse marketplace; all Jasco/GE packaging features information and instructions in both English and Spanish.
